Dear Dave

Further to our recent telephone conversation re The Trust Group.

If every company I called found me £17k (in hard cash) within a month of doing business with them I would be a good deal less stressed than I currently am.

If that wasn't everything in all likelihood we are looking at further savings in excess of 20k up to 2010 through a renegotiated utilities contract. All done in less than an hour of management time.

Thank you for your continued efforts to save us money and I look forward to much more over the coming months when we look at water consumption, insurance and the rest.

The bar has been set high but I have every confidence in you.

Regards.

Roger Davinson  
CEO
