Reclaiming your gas and electricity over charges through EnergyCentric

Dear Colleagues,

My school received £38,000 within two months of signing the form. I was able to replenish my overstretched budget; purchases some much needed 'wet play' activities and employ another TA for a year.
It was really easy!!

How?

I supplied the rep with the schools last three years gas and electricity bills and signed a consent form for EnergyCentric to reclaim the charges.
There are no additional administrative tasks other than finding your bills and signing a form. The process is that simple.
I wish to thank EnergyCentric for recuperating these excessive and over exuberant charges which was clearly the schools in the first instance.
I certainly would not have known my school was being overcharged!!!

Yours sincerely,

Stephen Spooner
Headteacher
