

ENERGY SOLUTIONS

that work for your business

SERVICES AVAILABLE

- **ELECTRICITY PURCHASING**
A comprehensive electricity procurement service for business clients including fixed term and flexible contracts
- **GAS PURCHASING**
Working with all major suppliers of natural gas, we can secure fixed term and flexible agreements
- **COST RECOVERY**
Have you been overcharged? Our cost recovery service will find out fast
- **BILL VALIDATION**
A service that identifies & resolves any billing errors throughout the contract
- **ENERGY MANAGEMENT**
From efficient metering and consumption data, to sustainable energy, we have the solution

Every business uses energy, but are you paying too much for your electricity and gas?

As independent Energy Brokers, we work with you to secure the best possible price for your gas and electric contracts on the wholesale energy market.

Based on your specific requirements, we tender on a "live" basis to all the energy suppliers, take care of the transfers and monitor your account throughout the entire contract.

At renewal, we ensure that termination is applied in accordance with Ofgem regulations and start the tendering process all over again.

The Energycentric Group of companies provide bespoke energy solutions nationally to commercial customers of any size, in any sector.

Contact us today on 0845 057 9900
and check just how much
you should be paying
for your energy.
